14 DATES BOOKED FOR SCHOOL FILMS

SCHOOLS ARE BEING BUNCHED FOR SINGLE SHOWINGS.

500 AT PARNELL SEE IT

Large Crowd Greets Pictures There Last Night—To Be at Ravenwood Tonight.

Fourteen additional dates for the showing of the Nodaway County school film, "And the Truth Shall Make You Free," during the next month, were announced this morning by County Superintendent Somerville and Geo. A. Pickens. These men have been working the past few days in making out a schedule for the showing of the films. Over a hundred requests have been made for them and they are being booked in the order in which they come. The following are the dates announced today and by whom they were booked:

Jan. 30—Maple Grove Church and 3 other schools.

Jan. 31st Burlington Junction, C. F. Ross.

Feb. 1st, Guilford, Harry Kissinger.

Feb. 2nd, Mt. Tabor, Rhoda Johnson.

Feb. 6th, Quitman, W. A. Power.

Feb. 22nd, Skidmore, J. W. Pierce.

Feb. 8th, Lafalette, Floreine Allen.

Feb. 9th, Eudora, Lorena Palmer.

Feb. 14th, Pickering, J. N. Geyer.

Feb. 16th, Elkhorn, James Decker. Teacher; Mrs. Ed Cole made date.

Feb. 18th, Conception College, Rev. Fr. Placidus.

Feb. 21st, Clyde, Miss Cletta Trueblood.

Feb. 7th, Harmony, W. L. Lewis.

Feb. 27, Myrtle Tree, Miss Gertrude Horton.

It was considered impossible to show the films at every one of the schools in the county, so four or five districts have gone together to have their meetings jointly at one schoolhouse where the films will be shown. Many of the above dates have been handled in this way.

Despite the fact that only a day's notice was given the people of Parnell that the county school film, "And the Truth Shall Make You Free," would be shown there last night, a crowd of 500 or more, crowded into the theatre to see the pictures. This was the second time the pictures have been shown in the county. Short talks were made by county superintendent, Leslie G. Somerville and Geo. A. Pickens, secretary of the Chamber of Commerce.

Tonight the films will be shown at Ravenwood by Mr. Somerville and Mr. Marcell. The county agricultural films will be shown tonight in Atchison County at the Enterprise School. Those planning to go with these films tonight are Mr. Pickens, W. H. Burr, C. F. Remus and Harold James.

The other was a $150,000 fire of a six story building on the west side.

READY FOR GAME WITH JR. COLLEGE

ANNOUNCE LINE-UPS FOR GAME TONIGHT

A BIG PEP ASSEMBLY

Coach Maynor Makes Interesting Talk Today on Sportsmanship and Basketball—Urges Support

The line-up that will start the game tonight against the St. Joseph Junior College team was announced today by E. A. Maynor, the coach at the State Teachers College. Brown and Haun will start at forwards; Bloomfield will jump center and Kirby and Ells will play guard.

Coach Maynor is holding out some of his men from the line-up on account of minor injuries received in the games last week. These men however, will likely get into the game before it is over.

Coach Frank Lawrence of the Maryville high school will referee the game which will start in the high school gymnasium at 8 o'clock.

What might be termed as a rip roaring pep meeting was held at the State Teachers College this morning at 11 o'clock in preparation for the basketball game which the College Bearcats will play tonight and Saturday night. If the purpose of the meeting was to arouse pep then it succeeded for the walls of the auditorium fairly rung with shouts for the Bearcats and for Maynor, the coach.

When called upon for a speech Coach Maynor said, There are three things that make a basketball team, namely, skill, hardwork and endurance. Any one of these will not suffice but all together they work pretty well. We have a good basketball team because it embodies all three of these things. All that we need now is the support of the student body. I am not asking for this support from a personal standpoint but for the boys who are working so hard to win games for you.

"Another thing that I wish to stress is good sportsmanship. Whenever anything happens that is not to your liking, don't jeer. That's the heighth of poor sportsmanship. Our boys play the game on a clean basis and more and more I am beginning to believe that it is not the team that employs rough tactics but the one that plays the game fair, square and hard that wins. Rough stuff is not good basketball. We don't stand for that sort of stuff in our school. We never have and we never will."

A number of times during the coach's speech he was interrupted by applause.

Speeches were also made by Howard Leech and William Mapel. These were followed by some yells and then the members of the girls basketball team passed out tags boosting for the game with Warrensburg Saturday night.

C. L. Chatham, the Junior College coach brought seven players with him to Maryville. They arrived on the noon Burlington train. The team that will start the game tonight will be composed of Mueller and Laughlin at forwards, McDonald at center and Geddes and Neidorp at guards. Platt, a forward and Miller, a center, were the other men brought on the trip.

Both Maryville and their opponents have met the Park College team of Parkville. A resume of the scores will give some idea as to the standing of the two teams in comparison with one another.

The Junior College boys in their game were defeated by one point smaller score than the Bearcats were. This game was played at Parkville while the game in which the Bearcats participated was played at Maryville.

CLUB WOMEN GIVE PLEASING PROGRAM

OPERA AND PLAY GIVEN AT COLLEGE YESTERDAY

500 WOMEN ATTEND

"The Mikado," and "Flower of the Yeddo," in Excellent Presentations—Many Visitors Present

Five hundred club women were in attendance at the program which members of the Music and Literature Department of the Twentieth Century Club presented yesterday afternoon in the auditorium of the State Teachers College. A change in place of meeting was made necessary on account of the large cast in "The Mikado," and the department members are appreciative of the courtesy extended in the use of the College auditorium. The program was the most pretentious one yet attempted by the department and was enthusiastically received. Among the visitors were a number of club women from Hopkins, Skidmore, Elmo, Ravenwood, Barnard and Albany. Representatives from the latter place were Mrs. W. M. Martin, a member of the fine arts committee of the Missouri Federation of Women's Clubs; Miss Alma Hundley, secretary of the first district federation; Mrs. G. M. Peery and Mrs. Elmer Lainhart; and among other visitors from a distance were Mrs. Miles G. Saunders of Pueblo, Colo., and Mrs. R. W. Bridges, Mrs. J. F. Tulloch and Mrs. Charles Henderson of Barnard.

Mrs. M. A. Peery, chairman of the department, gave a word of greeting to the members and guests, and this was followed by a five minute discussion of current dramatic topics by Miss Emma Hull. "Flower of the Yeddo," by Victor Mapes was presented under the direction of Miss Mary MacLeod of the State Teachers College. The interior of a poet's home formed the setting for the one-act Japanese play, and the costumes of the characters added to the effectiveness of the scene. Mrs. Arthur Brewer played the lead as the poet; and others in the cast were Mrs. Byron Costello, who played Sainara, the beloved; Mrs. Sherman Montgomery as Musme, the dancing girl; and Miss MacLeod as Taiphoon, comedy character. Skillful acting was submitted by those taking the roles.

Mrs. Charles Gaugh gave a five minutes discussion of current musical topics. Preceding the presentation of "The Mikado," Mrs. E. G. Orear read the text of the two-act comic opera which was first produced in London in 1885. The text was written by W. S. Gilbert and the music was composed by Sir Arthur Sullivan.

The scene of act one is laid in Japan in the garden of Lord Poo-bah. Nanki-Pooh appears in the guise of a wandering minstrel. He has fled from the Mikado's court in order to avoid marrying Katisha, an elderly lady of equivocal age and unequivocal temper. Nanki-Pooh makes known his love for Yum-Yum, who is the ward of Ko-ko. The Executioneer has planned to marry Yum-Yum himself, but surrenders her to Nanki-Pooh on very desperate terms. Katisha arrives on the scene of rejoicing to claim her perjured lover, Nanki-Pooh, but she is laughed to scorn and departs to seek the aid of the Mikado.

At the opening of the second act Yum-Yum and her maidens are preparing for the bridal. Ko-ko brings the fateful news that when a married man is executed, his wife must also be buried alive. Yum-Yum objects to this procedure, but Ko-ko plans to swear falsely to the execution in order to gain favor with the Mikado. The Mikado arrives with Katisha and is enraged at the report of his son's death. The monarch is then made happy by re-discovery of his son, but makes matrimonial arrangements to suit himself, which are eventually pleasing to all.

Mrs. Edward Wright Gray, who directed the opera, deserves commendation for the remarkable performance and rare discrimination was shown in the selection of the cast. The members of the cast had held daily rehearsals for the last three weeks. Mrs. Ralph Eversole, the accompanist, improvised the overture to the opera, introducing some of the popular airs from the musical score. The opera was presented in full, omitting male choruses and bass solos.

The cast of characters follows: Mikado, Emperor of Japan, Mrs. June Blagg; Nanki-Pooh, his son, Mrs. Don Martin; Ko-ko, Lord High Executioneer, Mrs. D. J. Thomas; Lord Poo-bah,

Jones, Mississippi farmer took the witness stand in the hooded mob investigation. Jones openly charged that the "black masks" had tossed the mangled bodies of the two victims into Lake La Fourche. The crowded courtroom hung breathlessly to each of his words in the testimony.

ANTI-FRENCH MOB GATHERS IN ESSEN

FRENCH CLOSE POST OFFICE AND TELEGRAPH STATION

TEN DIVISIONS IN RUHR

Says French Communique—Railroad Strikers Increase—Fighting in Coblenz—Pope Worried

Essen, January 25—Anti-French demonstrations broke out at Oberen hausen this afternoon. Two German telegraph orperators were arrested this afternoon for refusing to explain the working of the German telegraph systems to the Belgian and French military authorities.

A menacing crowd gathered in front of the French headquarters in Essen and it was made necessary to clear the street. The French closed the Essen post office and telegraph stations as a reprisal for the cutting of sixteen telephone and telegraph wires.

The railroad strike increased during the afternoon. Several stations are now tied up. German railroad workers have refused to operate trains carrying French men into the occupied areas. A communique was issued by the French saying that ten French divisions were now in the Ruhr.

Fritz Thyssen and the other Ruhr mine directors, who were fined by French courtmartial, are due here this evening. A huge German ovation is planned for them. Representatives of the German coal mine operators say that the fines will not be paid.

Rome, Jan. 25, (Copyright, 1923, International News Service.) Pope Pius 11 is deeply worried over the situation in the Ruhr, but believes it unwise for the Vatican to make any move of intervention at the present time, it was learned through official channels this afternoon.

Coblenz, Jan. 25—Violent fighting broke out here following the departure of the American troops, but was quelled by a handful of military police left behind by the doughboys as a "clean-up squad."

Disorders began last night when a mob attacked a newspaper office, who had been advocating separation of the Rhineland from Germany. The crowd was made up of 2,000 Germans, but was dispersed by a score of military police.

Feeling is running high here and a mob of 10,000 anti-secessionists and anti-French gathered but were scattered by the doughboy police. They sang patriotic songs and hurled epithets on those favoring the French.

SUGAR BUSINESS GOOD

The average Amerian consumed 14 pounds more sugar in 1922 than the year before. The average is 102 pounds per year which includes infants and all. Americans use more sugar than any other nation and are prone to go to extremes. The other nations range downward among the Europeaii nations to 75 pounds in Switzerland. The Russians and Chinese use only five pounds per person per year.

Sugar is a great stimulant. It is claimed that there is as much physical stimulant in two lumps of sugar as is an alcoholic cocktail. This perhaps accounts in some measure for the increased consumption of sweet stuff since the prohibition laws went into effect. Candies have a tendency to allay the thirst for liquor and produce a stimulation besides.

Americans are a high strung, nervous people, who can not accommodate themselves to moderation. While the Germans were satisfied with beer and the French, also a high strung people, can be satisfied with light wines, the American people stopped at nothing short of whisky, of high proof, concentrated, and aged to the point where it contained high ethers more stimulating that the alcoholic content. We went to extremes on the liquor proposition because the people could not restrain themselves nationally. We will now probably go to the extreme in the matter of sugar. Any way the outlook is good for the sugar makers for several years to come.

HELP FOR THE REFUGEES.

A bill is before Congress that would admit 75,000 adult Armenian refugees to the country, with 25,000 children. It would be required that adults measure up to the regular standards as to fitness and literacy, and that they be required to settle on the land as farmers or farm helpers.

Our people are not much inclined to let down the bars on immigration, but they cannot be indifferent to the heart breaking condition of these pathetic exiles, who have been driven from their homes in the dead of winter. They ought not to be permitted to herd in cities, but it would seem, if this country fails to find room for a considerable share of them, that it would be guilty of heartlessness at least.

Wonder how many New Year's resolutions still show signs of life?

We hear that in the old days parents made their children do as they wished but that was evidently before the children got to know more than their parents.

SHOULD YOU PAY FOR ADVICE YOU DON'T TAKE?

Sandy was not feeling well and consulted a physician of the village for advice.

"Do you drink, Sandy?" the latter asked.

"Yes, sir."

"Give it up. Do you smoke?"

"Yes sir."

"You must give that up, too."

This was too much, and Sandy was making for the door when the doctor called after him.

"You have not paid me for my advice, Sandy."

"I'm not taking it," was the reply. —From Everybody's Magazine for February.

Boomerang!

"So on her account you gave up smoking?"

"Yes, sir."

"And you don't drink now because she doesn't like you drinking?"

"Yes, sir."

"And for the same reason you no longer swear?"

"That's it, sir."

"And you no longer go to dances or play billiards or bet?"

"Because she didn't like me to."

"Then why on earth didn't you marry her?"

"Because I was so reformed that I saw I could do better."—From Everybody's Magazine for February.

It's the Spirit that Counts

You could not get a real idea of what this bank is even from a "movie," showing each transaction. For the pictures would not show the HUMAN side of the institution—the spirit of co-operation, the desire to serve.

That is why we invite you to come in and get acquainted. We shall welcome the opportunity to discuss with you your banking problems.

SPORTSMANSHIP

Old Bill Sanderson was an inveterate and enthusiastic New Jersey hunter, in this respect quite unlike his otherwise congenial pal, Jake.

"Huh!" Jake would growl. "Grown men shootin' little birds with big guns!"

This always threw Bill into a fine rage.

"Come out an' see what you can do with a big gun against one o' them little birds," was his usual retort. "When one o' them poor little birds sees you coming, he'll laugh himself so sick you won't have to shoot him. That's the only way you'll ever bring home a bird."

This challenge was so often repeated that Jake finally accepted it. Before starting, Bill undertook to expound the huntsman's code as he saw it, putting great stress upon the theorem that, if the sportsman played according to rules, the advantage was sure to be on the side of the bird.

Bill was leading the way toward a likely spot, giving due consideration to the wind and its direction, when Jake, totally oblivious of these elements in the problem, sighted a big pheasant scuttling along through a hedge. Instantly he brought his gun into position, and was taking aim, when the horrified Bill stepped forward and knocked the barrel of the weapon upward.

"Jake," he cried, "surely you wasn't goin' to shoot that bird while he was runnin' on the ground, was you?"

Jake the picture of disgust, watched the pheasant disappear in a clump of brush.

"No, you blamed old fool," he finally managed to ejaculate: "I was goin' to wait for him to stop."—From Everybody's Magazine for February.

The Mother Of Judas.

By Amelia Josephine Burr.

Mary, in the house of John,
Spent with sorrow, fell asleep;
But in the lonely potter's field
I heard a woman weep.
"Leading your baby feet, my son,
What turning did I take amiss?
What did I do or leave undone
That you should come to this?"
All night she made above her dead
That comfortless and bitter cry;
"What did I say or leave unsaid
That thus my child should die?"

How Did Months Get Their Names?

The first month was called January in honor of Janus—a deity who presided over the beginning of everything.

The second month was called February from the latin word, febru, which means "to purify," because, the purification of women took place in this month.

March, the third month, was named after Mars, the god of war.

April, the fourth month, was given its name from the Latin worn, aperio, which means "to open," this being the month in which the buds shoot forth.

Our beautiful month of May was so named after Maia, the mother of Mercury, to whom sacrifices were offered on the first day of this month.

June was named for Juno, the queen goddess.

The seventh month, July, was named by Marc Anthony, in honor of Julius Caesar, who was born in July.

The month of August was named by Julius Caesar, after himself, because in that month he celebrated three distinct triumphs, reduced Egypt to subject and put an end to the civil wars. Previous to this month was known in Rome as Sextills. In Gallia and other remote parts of the empire the ancient name for this month was Eaust, or Aust, meaning "to harvest."

The month of September derived its name from the fact that in the old Roman calendar it was the seventh month, the name coming from the Latin word septem, meaning seven. This latter was changed to the ninth month.

October, the tenth month, came from the Latin word octo, meaning the eighth month, which it was previous to the change in calendar in 1713 B. C.

November was also named from a latin word, novem, meaning nine it having originally been the nitth month.

December was named from the Latin word decem, meaning ten, and like September, October, November, before the change in the old Roman calendar was made, was the tenth month.

Miss Fronia Stephenson of Maryville set her first hen day before yesterday. If all goes well Miss Stephenson should have some early frys.

HISTORY'S MYSTERIES

COPYRIGHT BY THE WHEELER SYNDICATE

SHIP THAT NEVER CAME BACK

THE sea has its full quota of mysteries—ranging all the way from the depredations of Captain Kidd through the strange affair of the Marie Celeste, and up to the disappearance of the collier Cyclops during the World war—but none of these contain elements any more remarkable than the vanishing of the President, one of the first of the steam leviathans to cross the ocean.

Eighty years ago, Englishmen and Americans alike, were rejoicing in the fact that steamers had succeeded in regularly crossing the Atlantic, that a voyage could be made in as short a time as two weeks, and that the first of the Cunarders, the side-wheeler Britannia, had come safely into the harbor at Boston after the quickest passage on record. Steam, it was freely predicted, had conquered the sea, and men who had gone to London, spent nearly a week in England and returned within 30 days, were regarded as wonderful examples of the new-found marvels of trans-Atlantic travel.

One of the vessels which had been launched only a short time before and which the English-speaking world hailed as the latest word in luxurious oceanic comfort, was the President. Two hundred and sixty-eight feet in length, 64 feet wide, and with a displacement of 2,360 tons, this liner was not as large as many of the ships which ply the inland waterways today—but she was the marvel of the hour in 1840, and when she sailed from New York on her ill-fated voyage in March, 1841, every craft in the harbor paid tribute to her size and her superior ability.

In April, however, reports began to filter in from Liverpool that the President was overdue, and throughout the spring and far into the summer there was an agony of suspense in England as well as in the United States—particularly as the passenger list of the missing ship contained the names of many prominent in public life, including Tyrone Power, hailed as the prince of American comedians and George Glugston Cookman, whose eloquence was claimed to be superior to that of Henry Clay or Daniel Webster. The latter carried with him the first dispatch which Webster, as secretary of state, had written to England, and the superstitious of both sides of the Atlantic claimed to see a strange omen in the coincidence that the first President of the United States to die in the White House—William Henry Harrison—had passed away at the time when the ship which bore the name of his office began to be missed.

The fate of Power and Cookman as well as that of the duke of Devonshire, and a hundred other passengers, has never been settled. The only ray of light that was shed upon the mystery was that a Portuguese brig had reported sighting a large steamer moving slowly under sail, but, as the steamer did not hail the brig nor display any signal to indicate that she was in distress, no assistance was offered. As a memorial, a stone bearing the name of Capt. Richard Roberts, commanding the President, appears in a little churchyard near Queenstown, commemorating "the first officer under whose command a steam vessel ever crossed the Atlantic ocean." So far as Great Britain is concerned, this honor belongs properly to Captain Roberts, but ahead of him by 19 years, was an American Capt. Moses Rogers of the Savannah.

Whether the President foundered in some violent gale—a theory which hardly appears to be tenable, as no other vessel reported trouble at this time—was crushed and sunk by an iceberg in the same manner that the Titanic came to her fate some seventy years later, or was utterly destroyed by fire—no man to this day has been able to tell; for not even a splinter or wreckage, or a lifeboat was ever found.

The President sailed from New York.

She failed to arrive in Liverpool.

That is all that is known.

Maintained Monopoly by Murder.

The glass-makers of Venice used to guard their secrets by murdering all renegades who tried to escape to other countries with their trade-skill and thereby threaten the monopoly of Venice. Emissaries used to be sent by the state to assassinate workmen who took the glass-craft abroad. Two men from Murano, the little island at Venice, where glass makers still live, were induced by the Emperor Leopold of Belgium to migrate to his dominions, but they were killed by order of the Council of Ten.

Any artisan caught attempting to go to foreign parts was sent to the galleys. A state policy of preventing unemployment was given as excuse for the murderous policies by the Venetian government. It was claimed that workmen had been thrown out of work for two and a half months by spread of glass factories in Spain.

MRS. CHARLES FLOREA'S BROTHER BUYS FINE HOME IN WASH.

W. A. Whitman of Bellingham, Wash., who for many years lived near Pickering, recently purchased a beautiful new home in Bellingham. Mrs. Charles Florea of Hopkins, a sister, is in receipt of a Bellingham paper with the following account:

"With total consideration indicated as $10,000, a deed conveying the C. E. Flynn home near the Larson mill, Lake Whatcom, to Mr. and Mrs. W. A. Whitman was filed in the office of the county auditor this afternoon. The Flynn home on Idaho street is one of the most attractive and expensive in the Silver Beach and Geneva district. It is situated in what was once known as the Harry McCue homestead, and the property is described in the deed as part of a 40-acre subdivision of section 27, township 38, range 3 east.

Mr. Whitman is a retired farmer of the Nooksack district, and has for some time been residing with his family in South Bellingham. He is investing his money in Bellingham. Mr. and Mrs. Whitman are now establishing their home in the handsome Flynn residence."

Why That Lame Back?

That morning lameness — those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Maryville resident's example.

Louis Anderson, 804 North Walnut Street, says: "I had a bad fall which left my back in poor condition. I suffered for some time from dull pains which caught me in the small of my back and my back was lame and sore. I felt miserable and worn out and was hardly able to be about. I read of Doan's Kidney Pills in a local paper and purchased some. The first box brought great relief and after I had taken three boxes I was cured of the attack. I highly recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Anderson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

The Voice of the People.

Governor Oliver H. Shoup of Colorado tells this one:

"When I started my first term as governor of Colorado I figured everybody was impressed with the dignity of the office. This impression was rudely shattered.

"I was invited to deliver a speech at a fair in the southern part of the state. Mrs. Shoup accompanied me. When we arrived, the reception committee at the station missed us entirely. After waiting a while for recognition we decided to go with the rest of the crowd to the grounds. Unnoticed and unattended we ambled along. As we drew near the entrance someone shouted:

"'Did the governor come?'

"'No!' boomed a heavy bass voice behind me, 'The big stiff failed to show up.'"—Exchange.

G. O. P. PATRONAGE COUP IS OFFSET BY DEMOCRATS

Legislature Continues Its Practice of Economy As Pledged

By MEANS RAY

Jefferson City, Mo., Jan. 25—The effort of Governor Hyde, Attorney General Barrett and Secretary of State Becker to control the appointments of the State Board of Education against State Superintendent of Schools Charles A. Lee has been foiled by members of the Legislature who have gone on record as against paying salaries for persons in the department unless their vouchers are approved by Mr. Lee.

Appointment of employes of the board are made on the recommendation of the State Superintendent of Schools. In order to keep the Republicans in office so they may draw salaries totaling $31,000 a year, the Board, on December 5, when it became known that Sam A. Baker, Republican, had been defeated for reelection as State Superintendent, reorganized the vocational department and placed George W. Reavis in charge of the work at a salary of $3,500 a year. When Mr. Lee came into office he found the department completely separated from his office with Republican appointees of Mr. Baker in offices to themselves.

Democratic Legislators seeing the injustice of the political coup retaliated by attaching the rider to the request that salaries be paid only on vouchers approved by Mr. Lee.

Mr. Lee made several efforts to have a meeting of the Board but has been unsuccessful because Governor Hyde has been "too busy" to attend.

Democrats in the Legislature have continued their program of economy in the employment of clerks and the number has been kept to the minimum and will remain there until the session is over.

The number of bills introduced in both branches now totals 357 with 94 in the Senate and 263 in the House.

A measure of more than usual interest would provide for holding the primary election on the second Tuesday in June instead of August. Other election measures would also provide for the registration of votes of cities with 10,000 and more population. A bill providing for registration in Pemiscott county has been offered. The purpose of this measure is to prevent negroes being brought in from Arkansas, Tennessee and Kentucky to vote on election day.

A bill by Senator Hostetter would provide for the erection of a monument to the late Champ Clark at his old home in Bowling Green. The measure carries with it an appropriation of $25,000.

The House decided the Cole county contest by seating C. B. Corwin, Democrat, instead of W. M. Turbett, Republican. Turbett in a fit of temper following the action charged Democrats with being unfair. Mr. Turbett was given a majority of seven when the Republican county court of Cole county refused to count a number of absentee ballots cast by Democrats. By counting the ballots Corwin was given a majority of sixteen.

About the Flat Rate System

Our aim is to conduct a service station where car owners will receive prompt, courteous treatment at a fair price.

The flat rate system is now being used successfully by many garages, large and small, that it is apparent that a modern up-to-date garage cannot be operated unless the flat rate system is used.

We have three expert mechanics at your service. They know how long it will take to make repairs on your car. They know just how to get to the trouble without any guess work. You pay us for the parts if any is needed, and for the number of hours the mechanic actually puts in on the job.

Our mechanics know exactly how long it will take for any given job. For that reason we can tell you how much it will cost you to repair your job.

Come in and let us explain it to you in person.

Watch for further announcement in next week's papers.

MRS. EARLS TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Olean, N. Y. — "Every month my blood would go to my head and I would have such a headache, nosebleed, backache and pains that I could not do my work. At night I could not get my rest and nothing seemed to do me any good. I read some of your testimonials about what Lydia E. Pinkham's Vegetable Compound had done for others, so I decided to try it. I had only taken two bottles when I began to be better, and my back did not hurt me nor my head ache. I felt like a new woman. The Vegetable Compound is a splendid medicine and I will always recommend it."—Mrs. A. D. EARLS, 530 N. 5th St., Olean, N. Y.

Mrs. Kelsey adds her Testimony

I am willing for you to publish this letter if you think it will help others."—Mrs. HERBERT KELSEY, R.F.D., Copenhagen, N.Y.

JOKE ON JOHN ALEY

Made to Explain Why a Check He Had Lost Was Found in the Hen Roost of a Neighbor

The following is taken from this week's Hopkins Journal about John Aley, who formerly was a resident of Maryville:

In speaking of "getting a man's goat," John Aley, the Third street grocer, sure came near loosing his last week.

It seems he lost a check two weeks ago that had been sent him by an Omaha firm but had no idea where he lost it, so he said nothing, simply writing the firm saying he had lost the check and asked for a duplicate. He didn't even know that anyone in Hopkins knew he had lost the check, so he was not only surprised but puzzled when John R. Jones handed him the check one morning last week, saying he had found same in his hen house.

Geo. Ulmer Jr., was in the store when Mr. Jones came in and of course gave the grocer the laugh, asking him what he had been doing in his neighbor's hen roost.

It really worried Mr. Aley, his first impression being that it could be a case of blackmail, a plan to throw suspicion on him. He knew he had not visited the hen roost, but could not see how his lost check had gotten there until he happened to remember that he had borrowed Mr. Ulmer's car to make a short drive about the time he lost the check. It dawned on him that he had lost the check in the car and to have some fun, when George found it he placed the check in the hen roost of Mr. Jones. While George will not "kernowledge" the grocer is twice glad just the same—glad to find the check and glad to know it is not a case of blackmail.

A SAFE, SOUND AND PROFITABLE INVESTMENT.

The Carnotite Gland Extract Company, 412 Ideal Building, Denver, manufacturers "Radio-Active" Allgland Capsules has sold in excess of $12,000 in past few months—mostly mail orders—with advertising expenditure of less than $500. Enormous profit. Product in big demand now; being sold by druggists and direct-by-mail. Are going to begin national advertising in February. Will spend $40,000 to $60,000 this year and hope to do million dollar business with profits ranging from 60 per cent to 75 per cent. Publishers Write to Secretary Pickens upon the Visualized Educational Value of Film

George A. Pickens, secretary of the Chamber of Commerce, was this morning in receipt of an unsolicited complimentary letter upon the visualized educational value of the Nodaway County school film that is now being released through the county. The letter came from the Grolier Society, publishers of the Book of Knowledge, a well known educational work. The letter from the president said:

"We desire to congratulate you upon the wonderful move you have started in your district toward more modern educational methods.

"Visualized Knowledge is more or less of a "hobby" with the Grolier Society and we are always delighted when we see a progressive community endeavoring to better educational methods, as you are doing."

SUCCESSFUL EXTENSION CLASS IS COMPLETED BY W. H. BURR

Second Year Course in Vitalized Agriculture Given At Savennah —Many Former Students.

Last Saturday W. H. Burr of the College completed his extension class in vitalized agriculture at Savannah. The course covered the second year of the vitilized agriculture rotation plan. There were twelve teachers taking the course and most of them are former students of the Teachers' College here. Those in the class were Bessie Palton, Anita Bielman, Pearl Clemens, Nora Cruse, Mary Elliot, Marve Hart, Cecil Jenkins, Irvin Graff, Helen Yenni, Edna Sexton, Pearl McElvain, and Mrs. Stella Clark.

On January 5 and 6, a county teachers meeting was held there and for the first time, county pupils gave demonstrations in agricultural work. Twenty-five students from the rural schools, whose teachers were members of the extension class, gave demonstrations on rope making tying knots, making halters, book racks, pedestals, music racks and other articles. They also had a display of agriculture products. Many illustrations were given to show how the agriculture work could be correlated with other subjects.

D. D. Hooper, county superintendent of Andrew County, in discussing the work there, said that the teachers trained to do the agriculture work as outlined in the state course of study and according to the vitalized agriculture plan, are the outstanding teachers in his county. Mr. Hooper went on to say that the rotation plan was much more satisfactory than the old hit or miss plan. He stated his belief that teachers should be trained to teach boys and girls, and not subjects. Indications point to a large attendance from this county to the summer term of the State Teachers College at Maryville.

OIL INSPECTOR AN EDITOR

A. W. Butler Heads Northwest Missouri Press Association

Jefferson City, Jan. 25—Asa W. Butler, who was appointed state oil inspector yesterday at a salary of $3,500 a year, is one of the best known editors of Northwest Missouri. For twenty years he has been editor of the Albany Capital. He now is president of the Northwest Missouri Press Association.

Butler began his newspaper career in 1881. In 1885 he was a printer on The Kansas City Star, then a 4-page newspaper.

B. B. PRACTICE AT HIGH SCHOOL HAS BEEN "RAGGED"

Team not Working Hard and Coach Is Discouraged With Form They Are Showing for Trenton

Basketball practice at the Maryville High School has been very "ragged" during the past week. There is an idea prevalent among the players, that the remaining games of the season will be easy. They seem to think that the Benton game was the hardest game of the year, and that since they defeated Benton it will be easy to defeat the other teams.

This is far from true. Trenton has been practicing basketball, ever since they were defeated in football by Maryville. This intensive practice by Trenton means just one thing. That is, that they are said to have the strongest team they have had in years.

The coach seems discouraged with the form that the team has shown. The boys are capable of very good work, and they have a chance to develop into a real team, but if they don't get down to work, the St. Joseph episode in football is likely to be repeated.

LONE BANDIT HOLDS UP BARTENDER FOR $30.

St. Joseph, Mo., Jan. 25.—"Keep your hands on the bar! If you even wiggle, I'll kill you dead!" shouted a lone bandit as he trained his revolver on Robert Reed, bartender at a soft drink stand at Fourth and Messanie streets and his porter, Alex Imboden, as he ransacked the cash register of about $30 in cash.

"Now throw your hands up. You shoved a roll of bills into your pockets," yelled the robber as he poked the barrel of his revolver against Reed's ribs and held it there while he rummaged through the bartender's pockets, obtaining a little over $2.

Thanking the bartender and the porter for their generous donations, the bandit backed out of the place and disappeared in the darkness. Reed summoned police who raced to the spot but were unable to find trace of the robber. The robbery occurred at 10:10 o'clock.

Reed told police that the bandit had entered his place three times earlier in the evening, buying a glass of beer each time. On the fourth trip in the robber leaped over the bar and covered the bartender and porter with a large revolver and proceeded to shake down the cash register of its day's receipts.
